## VET H Plus

**VET H Plus:** is a potent and long lasting compound with residual activity which deactivates ALL major viral groups and kills bacterial, moulds, fungi, yeast protozoa, coccidia and other diseases causing organisms.

**Benefits: VET H Plus:** is particularly safe to use and is UK MAFF approved to food grade standard and unlike any other disinfectants it is NON TOXIC, NON CORROSIVE, BIODEGRADABLE, BROAD SPECTRUM AND HIGHLY EFFICIENT with up to 7 days residual activity.

### **Spectrum and highly efficient:**

Glutaraldehyde 12% w/v

Benzalkonium Chloride 8% w/v

**Dilution:** For Terminal disinfection and hygiene dilute at 1:150 parts water i.e. 100ml per 15 liters. Apply to all surfaces by cloth, spray or fogger.

### **Other efficacy dilutions:**

Staphylococcus SP	1:150
Salmonella SP	1:150
Faid	1:80
Rotavirus H	1:200
Swine Pox	1:500
SVD	1:300
Septicremiam, Swine Plague	1:200
Mycoplasma SPP	1:200
IBD	1:50
Poxvirus	1:150
Herpetovirus	1:1400

For use as water sanitiser dilute at 1ml **VET H Plus** to 3 liters drinking water. Dose water weekly.

**VET H Plus** used correctly will eliminate :  
MYCOPLASMAS, POXVIRUS, PARAMYOXOVIRUS AND RESPIRATORY  
DISEASE ORGANISMS.
